

RULE 10 HOMEWORK QUESTIONS 9-2-03

1. How many defensive fouls include an automatic first down? What are they?
2. If each team fouls during a down (double foul) in which there is a change of team possession, the team last gaining possession may retain the ball if two conditions are both met. What are they?
3. 3rd & 20 from team A's own 4 yard line. A2 fumbles on the 3, and B muffs the ball into A's endzone trying to recover. A6 picks up the ball and is tackled in the endzone, but a 15 yard facemask penalty is called on B during the tackle. Where is the penalty marked off from?
4. B2 intercepts a pass in his end zone. While he is still there, B2 fumbles after A5 grasps and twists his facemask. The ball is recovered on the 2 by a prone A7. What is your final answer?
5. First & 10 on B's 25, QB rolls to his left on B's 30 where his facemask is grasped and twisted, but he breaks loose and completes a pass to B's 5. Is the penalty added on?
6. Second & 9 on team A's 30 yard line. A1 fumbles on B's 28, where B3 picks it up and returns it for a TD. During A1 run, A4 held B4. Can B take the penalty on the try?
7. Can the coach come on the field during a heat/ humidity time out?
8. There was some question about player 11 leaving the field and coming back into the game before the ball was snapped. Here is the play. Wide receiver A11 goes off his sideline after he leaves his huddle. The coach yells for him to get back into the game. He comes back on during the cadence and lines up as a receiver and is set, and the defense does recognize he is there. Is this a foul, and if so, is it dead or live ball?
9. 4th & 5 on team R's 30 yardline. K1's punt is airborne well beyond the line. As R2 is under the kick and about ready to try to catch it, K5 blocks R2 at team R's 35 yardline. The kick hits the ground and finally rolls dead on team R's 25 yardline.
10. First and ten, team A's 20. A2 runs to the 50 where he is downed. After the tackle, he gets up and brings undue attention to himself, causing a 15 yard unsportsmanlike foul. What is the down and distance of the next down and from where?
